

Hello! Our names are Zachary and Angela - we work with a meditative light machine called the Lucia N°03. Invented in Austria by a medical neurologist and clinical psychiatrist, there are less than 20 of these lights available to the public in the whole US. The Lucia N°03 is a kinetic photo-stimulator that provides a deep nervous system relaxation while simultaneously encouraging a unique transcendental journeying experience. Even novice meditators experience a state of deep relaxation coupled with focus, where one is in touch with their own intuition and sense of wholeness.

A combination of solid and flickering white light passes through closed eyelids, past the retina to the pineal gland, and gently entrains the brain waves into the theta state. It also creates a unique visual experience that is different for each light traveler. The inner consciousness of the individual produces colors and scenes of indescribable beauty. Faced with the artistry of ones own inner consciousness, light travelers cannot help but to re-evaluate their perception. Each experience is as unique as the person in the light.

While Dr. Winkler and Dr. Proeckl (the inventors) recommend 4-5 sessions to build new synaptic connections in the brain and start initiating more permanent changes in the way the nervous system responds to stress, even 1 session provides a moving and unforgettable experience.

Reported benefits include:

Reduced anxiety and stress

Reduced fear and depression

Sense of wholeness / oneness

Increased sense of inner peace and emotional stability

Increased creativity

Increased intuition

Improved physical healing

More restful sleep

Release of beneficial hormones related to health and longevity

Access to Astral travels and inner journeying

Required Space:

- The room would ideally be closed, but if that's not possible then a secluded corner can work
- The client will be wearing headphones so if the background music/noise is low/gentle then it won't disturb the session
- Ideally the lights are dimmed in the room (some light is fine and won't affect the experience)
- A comfortable chair or massage table is ideal for the light traveler, plus a small table or stool and chair for the light attendant (we can bring these if necessary)

SAMPLE SCHEDULE

Each session for 1st time light travelers lasts 1 hour and costs \$100 - \$120. This includes several "demo" sessions to find the right intensity level and a longer session in the light (40+ min).

My partner and I take turns giving sessions, which allows us some time to discuss with the client after the session if necessary. Please leave 1 hour free in the middle so we can have a break, and remember to leave a session free for yourself - probably best the first session of the day.

Also, most of our events sell out quickly, which is why we try to plan 2 days.

9:30-10am : Set up (takes about 15-20 min)

10-11am: Light session 1

11-12pm: Light session 2

12-1pm: Light session 3

1-2pm: Light session 4

2-3pm: BREAK

3-4pm: Light session 5

4-5pm: Light session 6

5-6pm: Light session 7

6-7pm: Light Session 8

7-8pm: Light Session 9

Lucia
Nº03

For More Info Email Zachlucialight@gmail.com

Partnership agreement:

30/70 split of profits (30% to the space)

Free staff sessions (up to 2)

Marketing materials provided (email outline and social media memes) for you to send out making it easy to fill up the sessions.

Check or credit card payment is accepted – generally the space collects the fees from the clients and then cuts a check at the end of the “event”

Making combos is a great way to promote one of your services as well. For example, at Float Spas usually there is a Float/Light Combo offer. People have incredible experiences with the Lucia before a float (mutually enhancing)

Some of our past locations of highly successful events:

Conferences:

MAPS Psychedelic Science Conference (Oakland, CA)

TransTech Conference (Palo Alto, CA)

Healing Arts Expo (Sacramento, CA)

The Float Conference (Portland, OR)

Consciousness Hacking Event (Miami, FL)

Float centers:

Oakland Floats (Oakland, CA)

Float North (San Diego, CA)

Theta Wave Float Spa (Sebastopol, CA)

Spas:

The OM Spa (Naples, FL)

San Pedro Wellness (San Pedro, CA)

Retreat Centers:

Tara Sanctuary (Topanga, CA)

Corporate Events

Palantir Technologies (Palo Alto, CA)

Mindspace (San Francisco, CA)

Festivals:

Burning Man (Camp Mystic)

Cosmic Convergence (Guatemala)

Arise Music Festival (CO)
